8 [D] Creative Intent

Statement of creative intent by director – please provide text in the box below (do not provide separate document)

Note: This is separate from section 9[A]. Statements for completions/enhancement projects should outline work to be done and how MIFF funding may enhance this. **Feature documentary proposals should set-out clearly, (point by point) and fully, the difference between the TV hour and feature versions.**

Statement of creative intent by director – please provide text in the box below (do not provide separate document)

SECTION [9]

GENERAL ASSESSMENT CRITERIA

Now that the eligibility, administrative and, crucially, the creative matters have been addressed the final - and very important - General Assessment Criteria need to be addressed as these will be central to the deliberations on project support. This is your chance to make your case for funding.

This is a very important part of the application. Applicants should be sure to complete this section after considering the sample questions posed under the various headings in **Section 6 of the Guidelines**.

9 [A] Creative: Quality & Development

(Cinematic form, craft and team considerations. For more details on this criterion, see section 6a of the guidelines)

9 [B] Audience & Programming

(Where this might fit in MIFF programming? Suitability for MIFF repeats? Travelling? Theatrical investment property? Encore screenings in future years? Event tie-ins at MIFF? Give examples of other films that have achieved similar audience outcomes. For more details on types of considerations under this criterion, see section 6b of guidelines)

9 [C] Viability: Financing Plan & Budget

(Does the financing plan as submitted prove that the project can progress financially and creatively in time for the MIFF premiere. For more details on this criterion, see section 6c of the guidelines)

9 [D] Balance of Slate: Creative and Financial

(How does the project fit in with the other PREMIERE FUND investments to date? For more details see section 6d of the guidelines and also press releases at www.miffpremierfund.com)

*Also, as the Premiere Fund's prior slate demonstrates, the Fund has a strong interest in and commitment to **'Stories that need telling'**; this includes strongly-authored big stories touching on pressing issues in creative ways (be that narrative drama or feature documentary). The Fund's **'Stories that need telling'** are films that have something to say whether it be about the creative endeavour, social issues, historical events, children's films, indigenous stories, diversity, etc. The Fund seeks content that shares its values around inclusion and diversity - including participation by, and representations of, women, LGBTIQ+, first nations peoples, Culturally And Linguistically Diverse (CALD) communities, disabled, regional and emerging talent.*

In making your case for support from the Fund, be sure to demonstrate that yours is a story that needs telling and how it aligns with the types of films supported by the Fund thus far.

9 [E]

Victorian Characteristics and Impacts

Amount of Future Victorian Spend - \$ _____ (required)

Victorian future spend as % of budget _____% (required)

(Outline Victorian elements, *including \$ Victorian spend as % of budget*, as well as showing the *future* Victorian spend (i.e. amounts for services yet to be consumed or invoiced for) as a leveraging factor against the requested MIFF PF funding (noting that the future Victorian spend should be several multiples of the requested PF funding), plus reinforcing applicant producer's Victorian residency and longstanding connection to the project. **NOTE:** that this leveraging figure should not be confused with multiplier effects. It should show your proposed future Victorian-spend as a ratio to your requested support from the Premiere Fund. For example, if you will spend \$900k in Victoria and are seeking \$75k from the Fund, then your leveraging factor of spend versus funding is 12:1. The level of Victorian spend is a key consideration for the Fund and a major factor in the determination of the amount of funding awarded to successful applicants. **See guidelines section 6e for details**)

9 [F]

Additionality

Additionality is a **central consideration**: how would the Premiere Fund (PF) support be *adding to* (or enhancing) outcomes that otherwise may not occur (or be diminished) without PF support? **See section 6f of the guidelines** for more details on this criterion.

It is suggested that applicant address this point under the headings of:

Creative (how creative choices are to be enhanced with the MIFF PF money, specific elements of story or visual effects etc that will be added owing to the MIFF PF money etc);

Financial (PF money is additional to (not substituting for) other sources of co-finance);

Distribution (how PF support might enhance distribution outcomes);

Industrial (how PF support generates additional Victorian crew and/or facilities and/or PDV outcomes)

SECTION [10]
